

ENVIRONMENTAL MANAGEMENT POLICY OF IGCAR INDUSTRIES, S.L.

IGCAR INDUSTRIES, S.L. is a company located in Minas de Río Tinto, in the Huelva Mining Basin, dedicated to the manufacture of optical brighteners and auxiliary products for textile, paper and home care industries.

The management of **IGCAR INDUSTRIES** is committed to the environmental protection that may arise from its industrial activity, establishing compliance with measures included within its integrated environmental authorization and their corresponding substantial and non-substantial modifications.

Likewise, **IGCAR INDUSTRIES** in its commitment to society and the activities it develops in its environment, has wanted to improve its environmental performance through a certification based on the standard **UNE-EN-ISO 14001: 2015** for the following activity:

"Manufacturing of optical brighteners and auxiliary chemical products for textile, paper and home care industries".

Therefore, the Management establishes, implements and maintains this document as the base of its **Environmental Management**, providing an effective progressive management for the actions it develops in all its centers, taking into account the identification and evaluation of its environmental aspects as a process of Initial operational control of its environmental processes, this environmental policy being the basis for establishing its environmental objectives, with the ultimate goal of improving our environmental behavior.

Therefore, the Management assumes and implements the following principles:

- **Commitment** in all its activities for the implementation of best available techniques within their processes, to **protect the environment**, including the **prevention of pollution** in all its possible forms and other commitments that are self-imposed, regardless of whether included in the controls of their surveillance and control plans.
- **Commitment to comply with legal requirements and other requirements** related to its activities to protect its environment.
- **Commitment to continuous improvement** of its **environmental management system**, improving its environmental behavior and environmental performance.
- **Commitment** to studying the products offered by its suppliers, selecting as far as possible **suppliers close** to its facilities, working without displacement and progressively improving the environmental aspects related to the activity.

This policy is communicated internally to all employees, suppliers, and other interested parties through public exposure, reading at management team meetings and other means deemed feasible.

Likewise, it is exposed to external interested parties through disclosure on our website, being available to them.

The Management will review this Policy when necessary, it will be responsible for it to be carried out and communicated and understood within the Organization.
